# **Sell Off The abolition of your NHS**

Corporate interests rather than patient care is driving reform in today's NHS and will divert money away from YOU. And the media are failing to tell you this. This film is radical. With over a dozen NHS insiders as witnesses, it tells the alarming story of how the health service as we know it is being quietly abolished. Almost without our noticing, it's been replaced by a system modeled on the US in which care is delivered by profit-maximising companies that charge patients for treatment which is anyway to be restricted and reduced. Directed by Peter Bach

**Speakers from the film: Dr Bob Gill (GP and candidate for National Health Action Party) and Lucy Reynolds (research fellow at the London School of Hygiene and Tropical Medicine) *in debate* with prospective candidates from the Green Party, Labour Party and TUSC.**

NHS campaign groups, anti-cuts campaigns, anyone who cares about what is happening to the NHS—**ALL WELCOME**. Entrance: £7 solidarity, £5 waged, £3 student / unemployed (free if you're unable to pay)
